Selective Service, and will register young men reporting to them for this purpose at the Appomattox County High School. "This is a real convenience to those young men who may not have time or transportation to visit the Lynchburg office to be registered," said Mr. Hernecall, "and we greatly appreciate the excellent job Mrs. DeVew and Mrs. James are doing for us."

Through the cooperation of the schools, most high schools in the state now have qualified Registrars appointed. Mr. H. Hight Dotson serves as Registrar at Rustburg High School and Mrs. Maude Darlington serves at Randolph Henry High School at Charlotte Court House.

In a recent announcement from Richmond, Col. Linwood G. Wilhelm, Virginia State Director of Selective Service, reminded the state's young men of the importance of reporting to be registered. "Registration takes no more than 10 minutes," said Col. Wilhelm. "The penalties under the law for failure to register are such that to avoid registration is risk which all parents and young men should think about."

Students Getting Social Security Are Reminded to Report Changes in Status

If you're one of the nearly [illegible] students, 18 to 22, receiving monthly social security checks, it's important to report any changes in your [illegible] to social security, according to social security officials here.

Students can get monthly social security payments if a parent gets disability or retirement benefits or dies. They can continue these payments to age 22 or, as their student earnings change, a spokesman said.

Changes in earnings, school enrollment, attendance or marital status can affect their payments, however.

"If a student 18 or over is getting social security payments and leaves school or starts attending on a part time basis, he should notify social security immediately," the spokesman said. "He is obligated to tell us of these changes so we can stop his monthly benefits as required by law."

A student's total yearly earnings from part-time or temporary jobs as well as self-employment can also affect his social security payments.

"Any student in the area who gets social security payments and knows his earnings for 1972 will exceed $1,680 should report this to social security," the spokesman said. "Otherwise, he might get checks which would have to be paid back later."

Social security benefits are reduced by $1 for every $2 earned if the student beneficiary earns between $1,680 and $2,880 in a year. In addition, benefits are reduced by $1 for every $1 earned if he earns over $2,880 a year.

"But a beneficiary can get full benefits for any month he doesn't earn more than $140 or perform substantial services in self-employment, regardless of how much he earns in a year," the spokesman said.

If a student beneficiary changes schools, he should report his transfer to social security. "And if a student gets married, he should get in touch with us right away," the spokesman said. "Marriage stops a student's social security payments."

Immediately following the dinner hour the president held the monthly club meeting. The meeting was well attended, and was very informative.

In a previous meeting it was the consent of all club members to make a donation, "To Little George Morgan's Fund" to furnish money to help little George on his way to better health. The club donated twenty-five dollars to the Fund ($25.00). We trust that this will be of some service to Little George Morgan.

After business was over, the remaining part of the club activities were turned over to the hostess who had members to play the club activities were turned over to the hostess who had members to play the club game, 'Bingo'. Two birthdays of members in the club were celebrated after "Bingo" was over, Mesdames Josephine Webb and Ellie Williams. The birthday gifts were beautiful, as well as useful. Both returned to Md. around noon Saturday with Ms.Bessie Robinson accompanying them to Md. They gave an account of an enjoyable trip to Historic Appomattox.
